— ABOUT US

A Logistical Bridge: Armenia — CIS

Lev&Av LLC has been active in international freight transportation since 2010. From day one, our goal has been direct, honest, high-standard service — without hidden markups or intermediaries.

Over the years we've built a robust technical base: our own fleet of curtainsided Euro-trucks and modern refrigerated trailers, able to move general, consolidated, temperature-controlled, and oversized cargo over any distance.

Alongside our own fleet, we work with a vetted network of partner carriers, which lets us handle around 40–50 shipments a month and take on any volume.

End-to-end freight forwarding

- Turnkey international road freight, FTL & LTL
- Door-to-door freight forwarding
- Route and vehicle-type selection tailored to each shipment
- Customs clearance and legal support
- CMR cargo insurance — 100% of shipments
- Real-time cargo tracking, 24/7
- Full transport documentation (CMR, TIR, and more)
- Flexible rates and preferential terms for regular clients

From the Caucasus to China: our CIS route network

Armenia sits at the crossroads of the CIS, Iran, China and Europe. We run both regular and on-demand freight along every major corridor.

- Russia & Belarus: Moscow, St. Petersburg, Krasnodar, Minsk, Brest
- Iran: the North–South Corridor via Yerevan — Goris — Meghri
- China: road, rail and sea via the ports of Poti/Batumi
- Europe: the Baltic states, Germany, and southern routes

Technology and shipment control

We run every shipment through our own TMS platform, giving us full control over the process and reducing the risk of delays or paperwork errors.

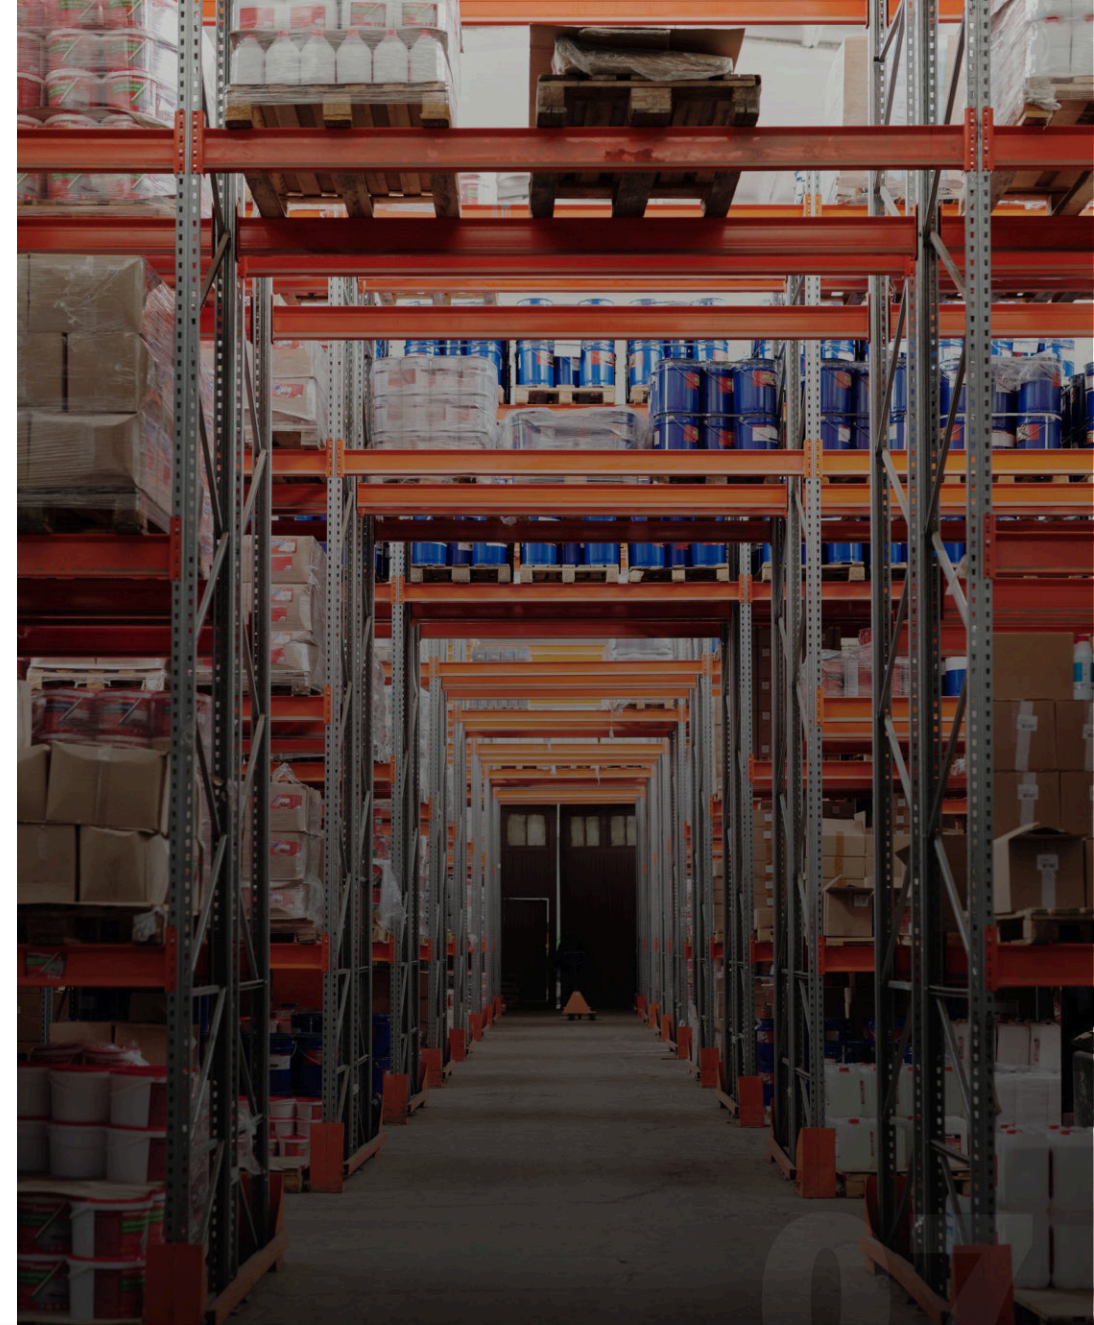

- 100% of our fleet carries real-time satellite GPS monitoring
- 100% of shipments covered by CMR cargo insurance
- Live shipment status and notifications at every stage for the client
- A single digital document repository per shipment

Trusted by

Our clients include Armenian manufacturers as well as logistics operators across Russia, Belarus and the Baltics — including the X5 Group.
